CORE EXPERTISE

AI & AGENTIC SYSTEMS

OpenAI Agents SDK
LangChain & RAG
Multi-Agent Systems
MCP (Model Context Protocol)
n8n Automation
Gemini API
Prompt Engineering

</> PROGRAMMING

Python
TypeScript
FastAPI
JavaScript
C++
SQL

DATA SCIENCE

Pandas & NumPy
Statistical Analysis
Hypothesis Testing
EDA & Visualization
Machine Learning
Scikit-learn

TOOLS & TECHNOLOGIES

React & Next.js
Node.js & Express
PostgreSQL & Supabase
Docker & Git
Linux & VPS
n8n & Workflow Automation

EDUCATION

Bachelor of Science in Data Science

Punjab University College of Information Technology (PUCIT)
University of the Punjab
2024 - 2028 (Expected)

Currently in 5th Semester

Focus Areas:
Statistics, Machine Learning, AI,
Data Structures, Databases,
Python Programming, Data Analysis

CERTIFICATIONS

- Model Context Protocol Level 2 Developer
PIAIC - Jan 2026
- Agentic AI Professional Level 2 Developer
PIAIC - Jan 2026
- Agentic AI Level 1 Developer
PIAIC - Jan 2026
- Prompt & Context Engg. Level 1 Developer
PIAIC - Jan 2026
- Model Context Protocol: Advanced Topics
Anthropic - Aug 2025
- Introduction to Model Context Protocol
Anthropic - Aug 2025

PROFESSIONAL SUMMARY

AI Engineer and BS Data Science undergraduate with hands-on experience building agentic AI systems, RAG applications, automation workflows, and full-stack solutions. Skilled in Python, FastAPI, LangChain, OpenAI Agents SDK, Gemini, n8n, React and PostgreSQL. Experienced in delivering real-world products including ERP, Hospital Management System, AI agents and SaaS tools for businesses and individuals.

EXPERIENCE

- AI Engineer (Trainee) – Panaversity** Mar 2025 – Present 4+ Months
 - Building agentic AI applications using OpenAI Agents SDK, RAG, MCP and multi-agent orchestration.
 - Developed prototypes including Academic RAG Assistant and automation workflows with LangChain, n8n, Gemini API.
- AI & Full-Stack Developer – SoftSol** Apr 2025 – Jul 2025 3 Months
 - Designed and developed the company website (softsol.com.pk).
 - Worked on responsive UI, content management, and hosting configuration.
 - Contributed to AI engineering and web development tasks in a client-delivery environment.
- Freelance AI Engineer & Developer** May 2025 – Present Ongoing
 - Building AI-powered SaaS tools, automation agents, and full-stack applications for clients and personal products.
 - Tech stack: Python, FastAPI, React, TypeScript, PostgreSQL, Supabase, n8n, Docker, Vercel.

MAJOR PROJECTS & SYSTEMS

ProManager ERP System

Full-Stack Business ERP

Complete ERP for systems integration & construction companies.

Projects • Procurement • Inventory • Sales
HRM • Finance • Reports • Multi-role Access

Next.js PostgreSQL Supabase Recharts

MediCare HMS

Hospital Management System

Hospital system with OPD, IPD, Pharmacy, Lab, Billing, Queue & more.

Patient Mgmt • Appointments • EMR
Pharmacy • Lab • HRM • Real-time Queue

Next.js PostgreSQL Socket.IO MinIO

Auto Social AI

AI Video Analyzer

Analyzes videos and generates subtitles, captions, hashtags & SEO content.

Python AI Automation Whisper

Academic RAG Assistant

RAG-based Tutor

RAG-based academic tutor for documents with source-grounded answers.

RAG LangChain Gemini Streamlit

n8n WhatsApp AI Agent

Multi-modal AI Agent

Multi-modal agent handling text, images, voice input via WhatsApp.

n8n Gemini WhatsApp API Webhook

AgriSahayak

AgriTech Assistant

AI farming assistant for crop disease detection, treatment & weather alerts.

Gemini Vision AI TypeScript Genkit

YouTube RAG Assistant

YouTube Chat with RAG

Chat with any YouTube video using transcripts and RAG for accurate answers.

RAG LangChain YouTube API Streamlit

Document QA System

RAG Document Assistant

Upload documents and ask questions. Supports PDF, TXT, DOCX with citations.

RAG FAISS Streamlit Pinecone

XRayVision AI

(Client Project)

AI-powered medical imaging platform with multi-model analysis & reporting.

FastAPI React Supabase Docker
